ULTIMA COVER BUILT-IN VERSION

The built-in version of the automatic Ultima Cover is ideal for new build projects or when transforming rectangular pools. It is perfectly concealed in a dry box and is invisible once it is rolled.

- Corrosion resistant aluminium rails. 4 models available:
Flat rail or hung rail under the coping, rails embedded in the pool side or to be screwed onto the pool side.

ULTIMA COVER ABOVE-GROUND VERSION

The above-ground version of the Ultima Cover is perfectly suited to refurbishment projects and to free-form pools. Discretely concealed in a box at the end of the pool, it fits in to your pool environment harmoniously.

- Bench structure in high strength grey powdered aluminium.
- IPE wood decking (option).
- Corrosion resistant aluminium rails. 2 models available:
Rails embedded in the pool side or to be screwed onto the pool side.

ULTIMA COVER IS AN AUTOMATIC FOUR SEASONS COVER THAT COMPLETELY COVERS AND SECURES YOUR POOL. IT IS AVAILABLE IN A BUILT-IN OR ABOVE-GROUND VERSION AND ADAPTS TO ALL NEW BUILD OR REFURBISHED POOL CONFIGURATIONS.

PERFORMANCE

Ultima Cover combines the performance of hydraulic motors with extremely durable materials and quality manufacture : rust proof anodised aluminium rails, UV protected fabric, high frequency welds. The power of the hydraulic motors makes it possible to open and close your pool very quickly (less than 1 minute for a 9 m pool).

SAFETY

Ultima Cover is an especially safe automatic cover because it prevents any access to the water, even around its edges. The pool can be covered quickly and constraint-free, and requires no fastening kits. DEL's automatic Ultima Covers are compliant with the NFP 90-308 pool safety standard.

PEACE OF MIND

Ultima Cover is a four seasons cover. It is completely opaque and watertight and is a true barrier against external pollution. Ultima Cover keeps your pool perfectly clean all year round. It is ideal for pools close to an abundantly planted environment. Thanks to its UV treated PVC fabric, Ultima Cover is very easy to maintain and will keep its initial aspects for many years.

SPECIFICATIONS

Maximum cover size: 7 x 14 m.

- Powerful and reliable hydraulic motors. (1 motor to open, 1 motor to close).
- PVC fabric assembled using high frequency welding (580 g/m² for compliant colors and 680 g/m² for non compliant colors).
- Corrosion resistant aluminium rails.
- Delivered with a cellar evacuation pump to drain stagnant rainwater off the cover.
- Remotely controlled bi Wi-Key, the remote wireless control box.
- 2 years guarantee.

Compliant colors with the NF P 90-308 standard

Non compliant colors with the NF P 90-308 standard

THE WIRELESS REMOTE CONTROL BOX

Rail embedded
in the pool side

Rail to be screwed
onto the pool side

The purpose of DEL safety covers is not to replace the vigilance of parents and/or responsible adults which remains the essential factor for the safety of young children. DEL automatic covers are safety covers designed to prevent children under 5 years old from accessing the pool. A child can drown in under 3 minutes, no type of protective measure can replace the monitoring and vigilance of a responsible adult.

Please read carefully and keep in a safe place.

Ultima Cover is a pool safety cover designed to prevent children under 5 years old from accessing the pool. This product complies with the NF P 90-308 standard. It is not a substitute for common sense or for individual responsibility. Its purpose is not to be a substitute for the vigilance of parents and/or responsible adults which remains the essential factor in the protection of young children. «A child can drown in under three minutes. No type of protective measure can replace the surveillance and vigilance of a responsible adult». **Maximum Ultima Cover size:** 2.5 x 3 up to 7 x 14 m. **Production sheet:** For the automatic Ultima Cover to be correctly fitted to the pool it is essential to fill in the order forms and comply with the technical recommendations provided by DEL. **Handling time:** Ultima Cover can be opened and closed by one person. For a 10 m long pool, automatic opening and closure requires about 1 minute. It is recommended not to operate the cover when there is stagnant water on its surface (in excess of 100 litres) and when the water on or in the pool, or around the pool is frozen. **Guarantee:** 2 years for the fabric and the motorisation in compliance with our sales terms and conditions. **Use:** In all seasons. For correct operation maintain a constant water level corresponding to normal pool filtering indicated on the order form. **Use limitations:** Unless otherwise specified by the manufacturer, immersion alarms are not compatible with Ultima Cover. Ultima Cover is compatible with overflow pools on condition that we have given our technical validation. For «waterfall type» overflow pools, please consult us for a technical feasibility study of your configuration. **Wintering:** Use active wintering without varying the water level by more than 5 cm. If there is an excessive amount of snow on the cover, it should be removed it. **Packing list For 5 x 10 m pool:** two 80 x 120 x 136 cm pallets / one 80 x 120 x 136 cm pallet / four 160 x 160 x 500 cm packs. **Weight:** Approx 350 kg.

Manufacturer: DEL La Basse Croix Rouge 35530 BRECE - France. export@del.fija-group.com - www.del-piscine.fr.
