

## ABOVE-GROUND AUTOMATIC SLATTED COVER

TIXIT

An innovative design for a sublimated garden

FIJA Group

## ABOVE-GROUND AUTOMATIC SLATTED COVER

# TIXIT

### + ESTHETISM

- Elegant, discrete and 100% recyclable end-stands imagined by our own designers.
- The LED lighting emphasizes the simplicity of the end-stand (electric model).

### + CUSTOMIZABLE

- Available in electric or solar version.
- A choice of 3 end-stand colors for a perfect integration in your garden.

### Soon

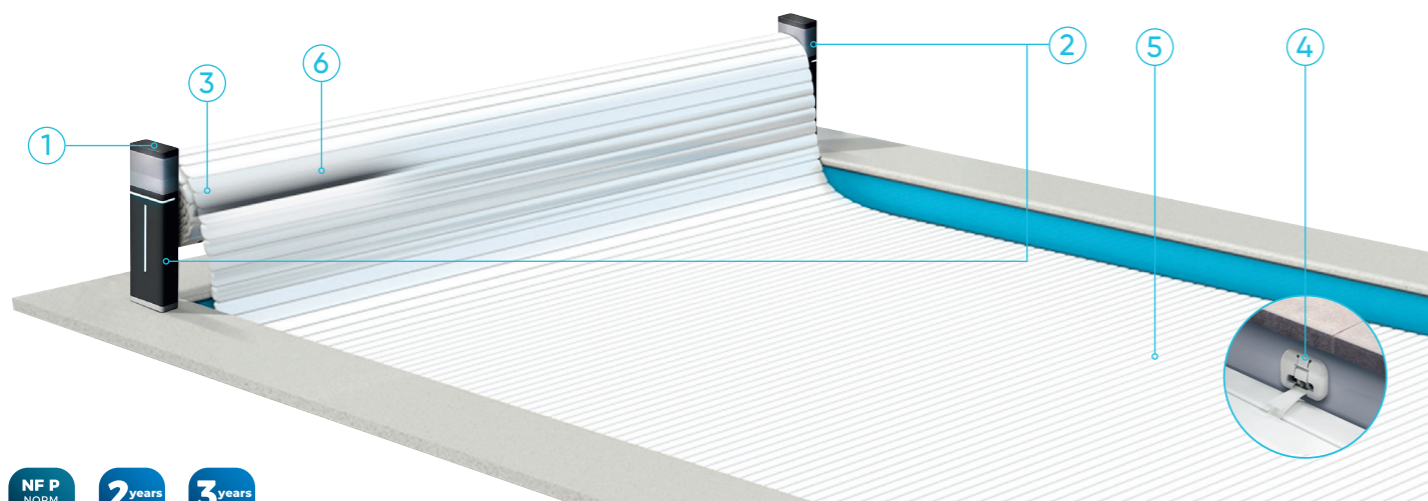

### SOUND OPTION

The end-stand of the automatic cover turns into a Bluetooth speakerphone and allows the diffusion of sound in the garden thanks to a fast and intuitive connection.

### + FINISHING

- All materials and components have been carefully selected for a perfect reliability and an optimal rendering.
- The textured powder-coated aluminium finishing gives the end-stand a modern aspect.

Covers available for pools from 2,50 x 3,00 m to 5,00 x 13,50 m.

### 1 BORNES

- Powder-coated aluminium end-stands.
- Compact end-stands.

### 2 DECORATIVE LED STRIP (12V)

- On/off switch on the end-stand.

### 3 MOTORISATION

Electric tubular motor :

- Adjustable mechanical limit switches, free-wheeling motor (used to unroll the slats in case of a motor breakdown and to keep the pool safe despite the absence of electricity).
- The motor service life is longer thanks to the bearings which support the tube and therefore the weight of the cover.

Wi-Key or key switch.

### 4 LOCKING KITS

### 5 SLATS

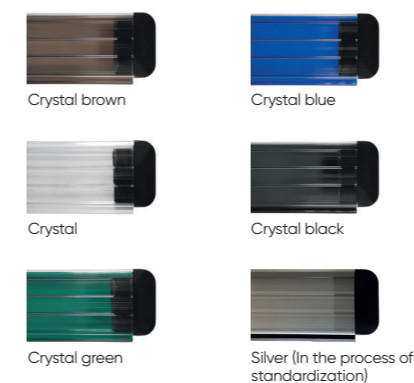

- Opaque PVC or solar polycarbonate slats.

### 6 MÂT ALUMINIUM

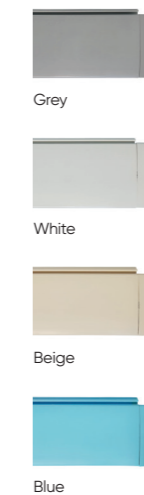

## Your slats choice

All our slats have a meticulous finishing and comply with the standard NF P 90-308.

### Solar polycarbonate slats

### Opaque PVC slats

### TO KNOW

Opt for solar polycarbonate slats to heat your pool water.

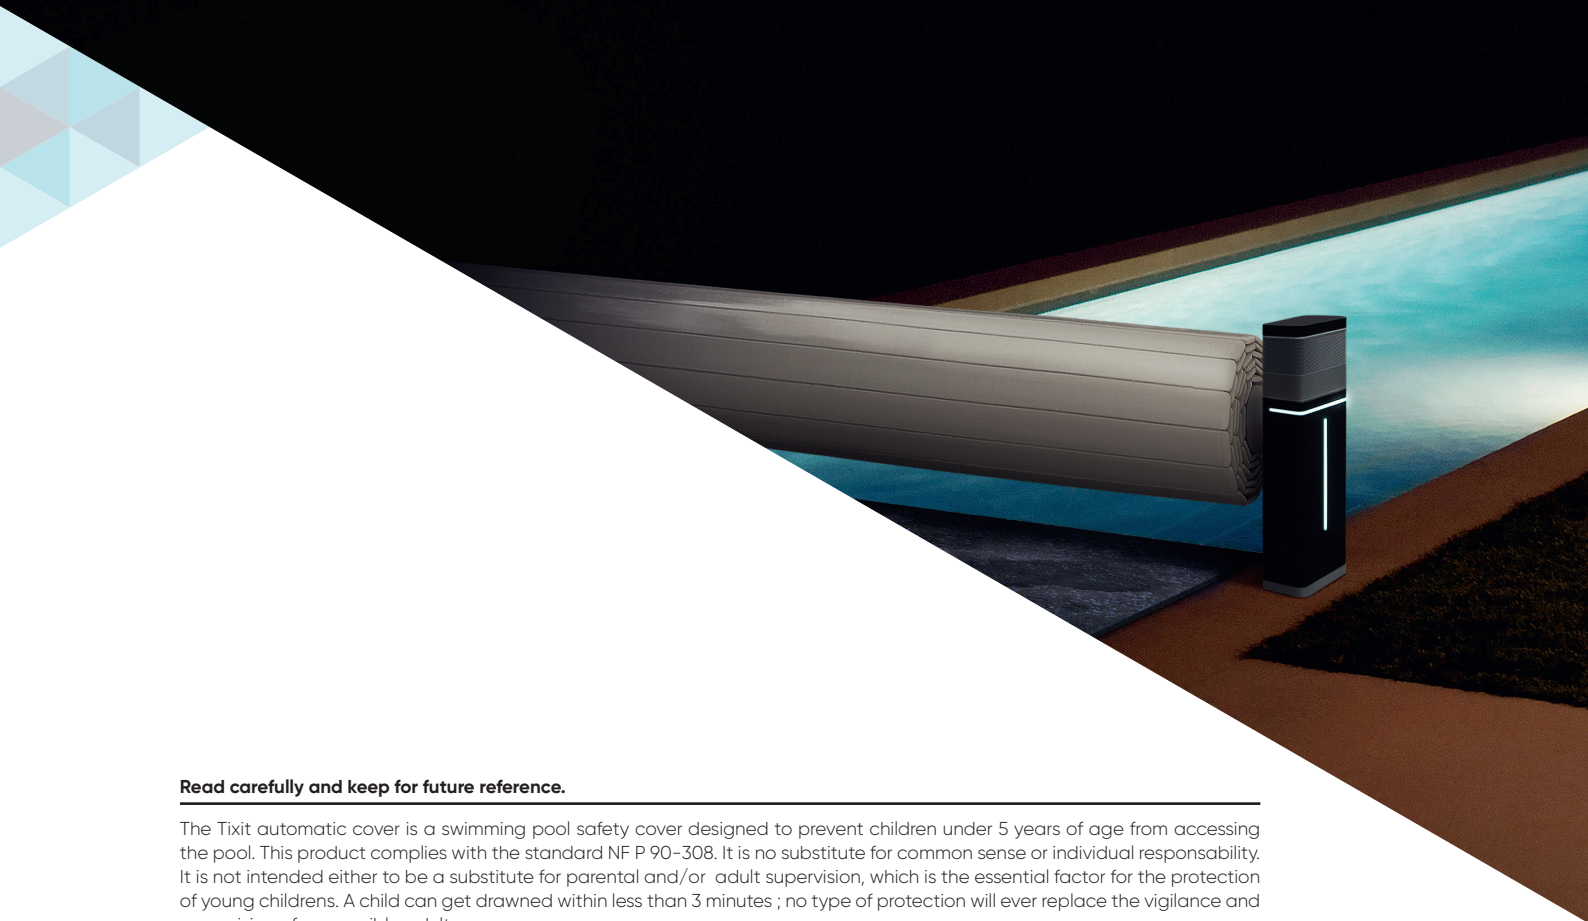

### + USEFUL

The Wi-Key control will make easier the opening and closing of your pool.

### ▶ DON'T FORGET

Protect your slats from UVs and dirt with the winter shift IVERNEA or with the protection shift 4 seasons IVERNEA PLUS.

**Read carefully and keep for future reference.**

---

The Tixit automatic cover is a swimming pool safety cover designed to prevent children under 5 years of age from accessing the pool. This product complies with the standard NF P 90-308. It is no substitute for common sense or individual responsibility. It is not intended either to be a substitute for parental and/or adult supervision, which is the essential factor for the protection of young children. A child can get drowned within less than 3 minutes ; no type of protection will ever replace the vigilance and supervision of responsible adults.

**Warranty** : 2 years for the roller and 3 years for the motor. 3 years for opaque PVC slats and 5 years solar polycarbonate slats, in accordance with our general sales terms.

**Order form** : to have a cover correctly adjusted to the pool, it is essential to provide a drawing of the pool with measurements taken every 1 meter. In accordance with the standard NF P 90-308, the gap between the inside of the pool and the edge of the cover must be less than 70 mm.

**Operating time** : for a pool of 5 x 10 m : 3 minutes for the automatic opening or closing and 30 seconds for the locking or unlocking of the safety kits. One person only can do the opening and closing of the Tixit.

**Use** : for all seasons. For a proper functioning, maintain a constant water level corresponding to a normal filtration of the pool. It is essential to have a water level regulator. The water level have to comply with the technical notice.

**Use limits** : The installation of an automatic DEL cover on overflow pools and/or with a stair along the length (detachable side stair) does not comply with the standard NF P 90-308. Another safety device should be used in that case. Unless otherwise specified by the manufacturer, under water alarms are not compatible with DEL covers.

**Wintering** : is compulsory to winterize the pool according to its geographic situation. Please refer to the technical notice.
